2021 International conference on Advance in Environmental Science and Energy Engineering (AES2E 2021) will be held in Qingdao, China on August 27-29, 2021, which was organized at Qingdao University, China. It will offer an extensive program of interest to academia, government and industry. AES2E has the goal to be an annual conference for researchers, academicians and industry persons in the field of Environmental Science and Energy Engineering. We hope that this conference will attract a large number of delegates from all over the world and will consist of very high-quality technical sessions.
